

Tyler Pufpaff

Software Engineer

SUMMARY

Creative software engineer with a passion for full-stack development, learning and agile practices. I am motivated by technology as a tool for meaningful change and a desire to optimize and achieve the best outcomes.

WORK EXPERIENCE

Software Engineer at 100Devs | Remote

January 2024 — Present

- Built modern and **responsive web applications** implementing industry best practices that improved page load times by 40%.
- Engineered full-stack applications utilizing MongoDB, Express, React, and Node (**MERN**) alongside **MEAN** and **MEVN** stacks.

Recent Projects: An Isometric TRPG built with **React & Three.js**, Industry tailored client sites built with HTML, CSS, and JavaScript, and a **full-stack** Manga tracking app utilizing **MVC** and **MERN**.

Billing Coordinator at FST Technical Services | Remote

July 2023 — Present

- Prepared estimates for a 2+ year project with an \$8.2M budget; monitored and controlled time, material, and scope across a **team of 15 engineers**.
- Managed financial assurance** of team projects, including invoicing clients, KPI reports, and **CRM management**; reported to CEO and CFO monthly.
- Led meetings, liaised with trade partners, procured equipment, and created various process assets and SOPs, including **configuration** and **automation** of reports in **Deltek Vision** and **Salesforce**.

Project Manager at Verizon Business | Cary, NC

February 2022 — July 2023

- Coordinated teams of cross-functional project managers, stakeholders, and engineers to reduce project risks and secure installation successes.
- Deployed **SDWAN/LAN Aruba** equipment to client sites, integrating between client, manufacturer, and third-party vendors.
- Communicated KPI progress to the executive steering committee and provided continual improvement recommendations.

VOLUNTEERING

Website Support Specialist at Variant Literature | Remote

July 2019 — Present

- Maintain E-commerce **WordPress** website and plugins including creation of **hundreds** of web pages, **marketing copy**, and **technical support**.
